# Center for America

## National Partners

### National Partners

The organizations included here comprise a diverse group of independent organizations, with its own mission and governance structure. They have in common, however, that they each focus on various aspects of legal reform. Some undertake public education or research programs, while others meet with government officials to advocate for specific reform measures. Each has its own role to play in keeping with its mission and charter.

For your convenience, we have brought together some of their notable reports and publications as a way for you easily become acquainted with their legal reform activities.

**Click on logos below to go to the organization's page on this website.** Or, click on the links on the right menu bar to go directly to their websites.

**Interested in legal reform at the State Level?**

### American Enterprise Institute Liability Project

The **AEI Liability Project's** mission is to promote a better understanding of the source, contours, and consequences of the liability crisis; and, to help ensure that political or legal reform energies are neither misspent nor misdirected.

### American Tort Reform Association

Founded in 1986, the **American Tort Reform Association (ATRA)** is a broad based, bipartisan coalition of more than 300 businesses, corporations, municipalities, associations and professional firms who support civil justice reform.

### American Legislative Exchange Council

The **American Legislative Exchange Council (ALEC)** is the nation's largest nonpartisan individual membership organization of state legislators who share a common commitment to promoting free market principles and limited government.
